

January 30, 2015

Dear Parents,

What a very interesting week! We were so busy this week! On Tuesday, Jody Moats came in and talked to the students about hibernation. Something we will continue to read and talk about at school! She had some really cool stuffed animals that the students loved! They also were able to pretend to hibernate around the room like some of the animals. It was cool! We continued our day with the 100th day of school!! A very exciting time in the early elementary classes. The students completed several activities working with the number 100. I am sure you saw some of them come home! Thanks for everyone who sent in items for the 100th day trail mix. It was a success!! Please continue practicing counting with your students at home. The rest of the week we continued counting and recognizing numbers to 50. They need to be able to count to 75 by end of the third quarter and 100 by the end of the school year. Next week we will start working with measurement.

In language arts we continued talking about being part of a family. The students did a super job with our vocabulary words this week. The sight words were came, ride, & like. The students are getting better at reading the sight words but be sure to continue practicing these at home as well.

I really enjoy working with your children. I love seeing the growth and accomplishments they make. If you ever have any questions or concerns please contact me.

Have a great weekend!

Mrs. Hamm
